The SE 1/4, Section 13, Township 13 North, Range 11 west, is part of Executive Order 2198, dated August 26, 1960, which withdrew approximately 241, 808 acres, more or less of public lands, the purpose of the Order being "*withdrawing lands for Indian use in aid of proposed legislation; re-withdrawing part of released lands for Indian use.*"
"Pending enactment of such legislation, the Commissioner of Indian Affairs shall administer the lands"

The same tract was withdrawn by Public Land Order 964, for use by the Atomic energy Commission, which was revoked on September 26, 1994.

the current land status of the tract is Executive Order 2198, administered by the Bureau of Indian Affairs.

Hi Jerry,

Good afternoon! As we discussed, the location of the uranium mine is in SE ¼ Section 13, T13N, R11W, which is noted as PLO 2198 lands. Please research your records and verify the current land status of this parcel under PLO 2198. TAAMS does note it as Navajo Nation lands, however there are no attached conveyance documents conveying it to the Navajo Nation.

Let me know if you have any questions. Thank you!

Good morning Sarah:

I'm just confirming I received your email and can check the land status today as it is currently shown in BIA's system of record. The background is helpful in the email thread where it seems the land may be subject to PLO 2198 which I admit I am not an expert on and may need to consult with more knowledgeable staff on its ramifications on the following parcel: **SE ¼ Section 13, T13N R11W** in McKinley County, New Mexico. I can provide you a preliminary answer a little later today though.

Wonsook,

I am copying Joan Marsan on this email because she is handling our CERCLA uranium mine matters in Navajo. She is out of the office so I am also copying Kate Kane (DOJ) who is heading a team of attorneys on the Navajo uranium mine matters.

Pat,

I received this email from an EPA Region 9 attorney (I have been working with EPA Region 9 on a CERCLA site in AZ). Sarah is looking for a POC who can provide some information on some abandoned uranium mines in New Mexico. Do you have someone who can help her?

Wonsook

To: "wonsook.sprague@sol.doi.gov" <wonsook.sprague@sol.doi.gov>

Wonsook,

I am looking for a contact for BIA with a question related to an area in the Eastern Agency and Karen Goldberg gave me your name and contact information. If you are not the right person to contact, would you be able to tell me who might be?

Our Superfund program has been looking at a group of abandoned uranium mines in the area of the Baca/Prewitt chapter, and McKinley County, New Mexico. There is one parcel of land that Navajo Land Department believes is part of Navajo Nation, but it seems to be held by either BIA or BLM. It is

not part of the reservation and is not allotment land. It had been subject to various withdrawals at different periods of time, and right now it seems to be subject to PLO 2198, which apparently was intended to facilitate land consolidation for the Navajo Nation. However, we have not been able to determine what the current status of the land is, or which agency to contact with regards to access and other issues. The land in question is SE ¼ Section 13, T13N, R11W.

I am hoping you or someone else at DOI might be able to provide some information on the status of this parcel.

Thanks in advance for any assistance you can offer. Please feel free to give me a call if you want to discuss.
